

About DSU

Dhanalakshmi Srinivasan University (DSU), established under the Tamil Nadu Private Universities Act 2019 by Dhanalakshmi Srinivasan Charitable and Educational Trust, is a leading institution in Tiruchirappalli focused on excellence in education and research. It offers a dynamic learning environment with innovative teaching methods, hands-on training and global exposure through collaborations. DSU's highly qualified faculty fosters intellectual growth, creativity, critical thinking and preparing students for a rapidly evolving world. With state-of-the-art infrastructure and a student-centric approach, the university emphasizes holistic development and values. DSU aims to nurture future leaders who contribute meaningfully to their fields and communities with confidence and integrity.

About SET

The School of Engineering and Technology (SET) at DSU offers 13 programs emphasizing practical learning and research. Equipped with state-of-the-art labs and experienced faculty, SET fosters academic rigor and technical expertise. Students gain real-world exposure through internships, industry collaborations and live projects. Memorandum of Understanding with global institutions enhance learning opportunities. SET aims to develop ethical cum skilled engineers ready to address real-world challenges and contribute meaningfully to society.

2nd International Conference on

MULTIDISCIPLINARY SOLUTIONS FOR EMERGING TRENDS

September 24 & 25, 2026

ICTACADEMY

SPONSOR

Organized by
SCHOOL OF ENGINEERING AND TECHNOLOGY

Conference Overview

Emerging trends and global challenges such as technological advancements, climate change, economic inequality, healthcare disparities, and cybersecurity threats are reshaping the world. These interconnected challenges demand multidisciplinary approaches, integrating expertise from technology, science, engineering, social sciences and economics.

The conference aims to explore innovative and sustainable solutions that transcend single-discipline limitations. It serves as a platform for academics, industry leaders, professionals and students to exchange knowledge. By fostering cross-sector partnerships, the event seeks to address complex global issues and create impactful outcomes for a better future.

Conference Features

Keynote Addresses

Renowned experts will deliver thought-provoking insights into the future of interdisciplinary problem-solving and the critical role of innovation in addressing global challenges.

Technical Sessions

In-depth discussions will focus on the cutting-edge innovations and emerging trends in technology, engineering, and social sciences that are reshaping the future of problem-solving.

Expert Panels

Multidisciplinary panels will bring together thoughtful leaders from diverse fields to discuss actionable solutions to complex global issues.

Important Dates

Full Paper Submission: **August 31, 2026**

Publication Details

Conference Proceedings: All accepted and presented full papers will be published in the official conference proceedings with an ISBN, ensuring that the research is formally documented, widely accessible, and permanently archived for academic reference.

Extended Papers in Journals: Authors of selected papers are invited to submit extended versions of their work for consideration in Scopus-indexed or Web of Science journals. Acceptance is subject to the following criteria.

- **Scope:** The paper must align with the journal's thematic focus.
- **Quality:** The paper must meet the journal's academic and technical standards.
- **Financial Requirements:** Authors may need to pay additional publication fees, if applicable, as per the journal's policies.

Note: Information regarding the available journals for publication will be shared with authors upon the successful completion of the primary review process.
